

Long Beach BMW Motorcycles

Long Beach, CA

Client: LB BMW Motorcycles
Architect: McDonald Soutar & Paz, Inc.
Budget: 2.2 million
Size: 14,808 SF

Bremco worked closely with the Architect and Owner to transform a nondescript concrete tilt-up into an eye-catching architectural tour de force. Featuring a one of a kind steel superstructure, space frame roof system and extensive use of storefront glass, the showroom highlights BMW's fleet of motorcycles. The refurbished service area allows ample space for technicians to service the bikes on epoxy coated floors beneath 21 new skylights.
