

First Vietnamese American Bank
Westminster, California

Client: First Vietnamese American Bank
Architect: Danielian Associates
Budget: \$716,000
Size: 9,000 SF

This is the corporate headquarters and first retail outlet for FVAB. As a contributor to the community, the retail lobby area can be divided into a community meeting room, utilizing operable walls. The project is a showcase for custom wood work including vaulted wood ceilings, custom designed millwork and paneled columns. The vault is prefabricated and installed on the existing slab.
