

**Old Dominion Freight Lines**  
Santa Maria, California

Client: Old Dominion Freight Lines  
Architect: Accord Design Group  
Budget: 2.45 million  
Size: 10,715 SF

Situated on over seven acres, this 20 door cross dock terminal features a Butler pre-engineered metal building with an MR-24 standing seam metal roof. Bremco's in house concrete crew placed site concrete and tilt up walls for the loading dock which has been designed for future expansion. Site work includes over 110,000 SF of asphalt paving, yard lighting, two on site fire hydrants and storm water retention basins.
