

Aeroplex Aviation Hangar Long Beach, California

Client: Aeroplex Aviation
Architect: Howard Parsell Company
Budget: \$658,000
Size: 25,756 SF

Located on the South side the Long Beach Airport, this pre-engineered metal hangar building is divided into six 2,601 SF hangars and two 5,075 SF hangars. The hangar building was furnished with a quick response fire sprinkler system, high bay metal halide lighting, convenience electrical outlets, rough-in for eight future restrooms, bi-fold power operated hangar doors, roof skylights and turbine roof vents.
