

Jurupa Self Sufficiency Center

Jurupa, California

Client: Jurupa Mission Partners
Architect: Holt Architects
Budget: 11 million
Size: 52,090 SF

Built specifically for the Department of Social Services, this building includes general office space, conference rooms and training centers for more than 350 full time employees. Water, sewer and power were brought to this 6.75 acre site as well as a new street, installed at the West end of the property. Utilizing concrete tilt-up construction and a hybrid roof system, the facility is also equipped with a variable air volume HVAC system.
